DECEMBER 1ST, 2019

Season of Thanksgiving and Giving Back

As we begin the holiday season we are reminded just how fortunate we are to be able to celebrate our family, friends, associates,

co-workers and clients. We have the opportunity at Hatch Staffing Services to share our passions with others by giving back to the community where we live and work. One of our key values is to *Stay Educated and Involved in the Community*. Throughout the month of November we have had the opportunity to give back in big and small ways.

On days that you don't think you can get up and get out the door in the morning, say thank you that you GET TO get up and go to work. On days that you get frustrated by someone or something, say thank

you that you have that person in your life. On days that you wish you had just a little more money in your bank account, say thank you that you are capable of making money to add to your bank account.

There were a few big events that happened in the month of November that were significant events that reminded all

of us just how grateful we should be and cherish the opportunities to give back.

Our very own President, Lori Malett, was a judge for the Milwaukee Stars Merengue fundraiser for Cristo Rey Jesuit High School. The night in total raised more than \$530,000.

Our signature fundraiser for pancreatic cancer, Ignite Hope at Mo's...A Place for Steaks was a huge success raising more than \$30,000 for PanCAN. Through this event we had the opportunity to expand our reach to even more individuals to raise awareness.

Finally, having a chance to recognize our associates that work so very hard is always our greatest honor. Three team members (pictured throughout) were the recipients of Thanksgiving turkeys to share with their families.

So remember, when you just don't think you can drag yourself out of bed, be thankful that you have the opportunity to face the day.

Staying Educated - WASS Legislative Conference

The Hatch team headed to the state capital of Madison to ensure that we are on top of our game with legal updates that have hit the staffing industry. Being in an industry such as staffing, things change early and often. It is important to always be in the know with these updates. Eight members of our team attended the full day conference and learned from the experts. We heard from Taylor St. Germain of ITR

Economics who shared his words of wisdom and advice as it relates to the economy. Patrick Morin of Transact Capital Partners spoke for the second year and shared information on building your brand. Mike Gotzler of Littler Mendelson & Jane Landretti of WI DATCP, updated us on the latest laws as they relate to marijuana. And finally, Toby Malara of the American Staffing Association

shared the latest general legal updates as they specifically relate to staffing.

Staying educated is not just one of the Hatch values, but also something

that is crucial to making sure we are always in the know on employment laws and trends.

Cristo Rey Jesuit High School Milwaukee Merengue Stars

As you read earlier, Hatch Staffing Services had the opportunity to participate in the Milwaukee Merengue Stars event for Cristo Rey Jesuit High School. This is the annual event that includes a *Dancing with the Stars* type of a dance fundraiser. Local business professionals volunteer their time to become expert dancers that are paired with professional dancers from Fred Astaire Dance Studio.

Lori Malett,
President
of Hatch
Staffing

Services was asked to be a guest “celebrity” judge next to Don Smiley and Rich Meeusen. The judges

shared their feedback with the judges after they each had an opportunity to perform the dance routines. Audience members were given the chance to cast their votes for their favorite dancers. Students of Cristo Rey collected audience “votes.” For every vote cast, \$10 was raised for the high school.

After enjoying a night of fun and dancing, the judges awarded their favorite dancer award to Shary Tran of Froedtert Medical. The big mirror ball trophy went to the individual that raised the most money for the high school, which was Eric Goetsch of Milliman.

The total raised, \$530,000, will be used specifically for building the new school that will be just around the corner from Hatch’s office. We look forward to seeing the final building as a result of all of the fundraising efforts.

Igniting Hope for Pancreatic Cancer

November was a month for the history books. While we don’t want to be celebrating something like pancreatic cancer, we want to bring awareness because of the devastating impact that this cancer has had on so many families. The month of November is Pancreatic Cancer Awareness Month.

Throughout the Milwaukee area there were purple events spreading awareness and remembering those we have lost along with those still fighting.

If you drove down the highway you

may have noticed buildings and underpasses lit up in purple lights. There were fundraisers at restaurants. Hatch’s signature fundraiser also took place on World Pancreatic Cancer

Awareness Day. This day is recognized throughout the world and just this year, Governor Evers signed into law declaring this day a special day of recognition in Wisconsin as well.

The Hatch team set out months ago to make this fundraiser bigger and better. All of the money we raise is donated to PurpleStride Milwaukee. This money stays local and helps to support families that have received the

devastating news that their loved one has cancer. The night included touching moments shared by survivor, Bill Cunningham. Lori Malett and Eric Becher of Hatch shared their reasons for supporting this cause that we are so passionate about. The final result of the night was that over \$30,000 was raised for PurpleStride. It was a night to remember and look forward

to making 2020 bigger and better yet!
