HatchGRAD Visit to UWM

by MacKenzie Ciganick

On February 25th, Dan Gitto and RyAnn Vasallo had the opportunity to speak to a Human Resources class at UW-Milwaukee's Lubar School of Business. Topics that were covered included facts and stats regarding the local job market, what is truly important in the eyes of hiring managers, and tips for job seekers. One topic that was covered in depth was how to set yourself apart from other candidates in this competitive job market. RyAnn expressed, "I like to share with students that I meet, how important gratitude is and that a simple thank you note goes a long way to set you apart!"

Dan and RyAnn also provided a run-down to the students about the service offerings of HatchGRAD, as well as the

HatchELITE Summer Internship Program, which is approaching its 11th year! At the end of the session, students were given the chance to ask questions regarding interviewing scenarios, how to handle tough questions, the staffing industry, and the job search process.

When asked about the event, Dan explained, "I think opportunities that put us in front of students are a win-win for both parties. It is our job to help coach and guide the next generation of our workforce to have the tools for success. It also opens up our talent pool to connect students with opportunities in their field and become invaluable assets to us here at Hatch and our clients as well!"

On February 29th, HatchGRAD will return to UWM to speak at the Delta Sigma Pi Spring Business Conference. In addition to being on campus several times at UWM this month, HatchGRAD also visited MATC, Alverno, Marquette, Cardinal Stritch and UW-Whitewater in the month of February. To learn more about HatchGRAD, please contact Dan Gitto at 414-231-9741.

Have you heard of HatchLIFE?

This is a mantra that we live by day in and day out when it comes to overall wellbeing. Our Hatch-

LIFE committee is made up of seven team members. As a committee, the goal is to get our team members on board with truly living the HatchLIFE tagline. Through wellness activities, community involvement, getting behind causes that matter, it is our goal to make a difference in all that we do. Throughout the year, our team will participate in challenges to motivate and in-

spire each other to be better and do more to take care of ourselves and those around us.

Throughout 2020, involvement is our number one goal. Offering different options for participation through wellness or community will help us achieve this goal.

So we invite you to check us out and join us in our quest to fulfill our mantra of Live, Inspire, Fit and Excellence.

Hatch Staffing Services in the Community

Lori Malett and Eric Becher attended the Wisconsin

Manufacturers & Commerce (WMC) Business Day in Madison event on February 26th. They raved about the day. US Secretary of Labor, Eugene Scalia kicked it off with a state of the US economy and Guy Benson followed up with a state of the political landscape with predictions for 2020. He had the entire group in stitches, but delivered great insight and facts. Hearing from the motivating and educational presentations of Admirals Scott Moore and James Winnefeld was inspiring. The day closed with the CEO of Oshkosh Corporation, Wilson James, who humbly shared the culture shift of his organization over the past couple of years. His presentation was icing on the cake for the day. There was great information shared throughout and we look forward to sharing it with our clients and business partners in March!

Celebrate the Hatch Associates hired in the month of February! They did it! After successfully completing 520 hours with Hatch and showing their commitment, they've taken their career to the next level and are making a difference!

Congratulations to the following associates that were hired:

Paris Briley, Alex Iverson, Ryan Buszka, Rofiah Begum Kadir Huson, John Jude, Anthony Kirk, Andre Burdine, Joseph Gondek, Jacob Liljenquist, Lieren Lorenc, Hillary Gauthreaux, Taran Walkush, Spencer Warner, Nicholas Decaro, Francisco Roque, and Debra Mousavi

The Hatch team recognized Heart Month through spreading awareness. Heart disease continues to be a leading cause of death. It doesn't only affect adults, it impacts children. It doesn't discriminate on race or gender, it affects all races and genders. Taking a few extra mo-

Healthy Recipes

ments to acknowledge these devastating statistics was our goal for the month of February.

We gave a healthy cookbook to clients who share a similar cultures and have a passion for health and wellness.

We also recognized Congenital Heart Defects (CHD) Awareness Day on Friday, February 7th. The simple act of wearing red goes a long way in helping to create additional awareness. Every bit counts to make a difference in the world

SAVE THE DATE - PanCAN Corporate Team Kick-Off

Hatch is pleased to partner up with Ellsworth Adhesives and launch a kick-off breakfast to ignite the Milwaukee community with hope for the Pancreatic Cancer Action Network of Milwaukee. On Thursday, March 19th from 7:30AM-9:00AM, Corporate Team Captains will meet to learn more about getting their teams assembled, fired up and ready to walk! We are looking to find a few key executive team members to join our Corporate Teams Committee and serve as ambassadors in the community who will help recruit Corporate teams to Purple Strides Milwaukee on June 7th, 2020. If your organization is interested in being part of our movement to raise awareness and

help those diagnosed with pancreatic cancer see better outcomes, we want to have you at the breakfast. Bring team members, bring business colleagues in the community who you

10 YEAR ANNIVERSARY

know and bring your passion because we are ready to make it happen. Our goal on March 19th is simple—to get 10 new Corporate teams to join us on June 7th and help Demand better for those facing a pancreatic cancer diagnosis and to wage hope for a better outcome.

To learn more or to secure your spot at the kick-off breakfast, email Kristin Adelmund at Kristin@hatchstaff.com. Join the Hatch and Ellsworth teams and let's get behind the underdog of Cancers to help increase survival rates to the same levels as other cancers see today.
